

Proceedings of the London Mathematical Society Volume 27 (Paperback)

By London Mathematical Society

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1896 Excerpt: .the case of flow past sharp edges, the solution yields, infinite values of the velocities. We shall suppose the vortex to present no sharp points or edges as part of its boundary, so that the functions concerned have finite differential coefficients at the boundary, and any discontinuity arises from the difference in functional form on the two sides of the boundary. The continuity of u with u over the entire surface requires, $\int du du$, $(du du, fdu du r dx dxj dy dyj dz dz J i (djl M a. (du du . / - / du du Q dx dx J dy dyj dz dz J$ Hence $du du, du du du du, -, x Txdx=|Xl dy=- mX- dz=nXl (U) Q- -i i dv, dw dw$, Snarly, $- =ZXL, . - =Jx, .$, where $Xd Xa X-$ are be determined. Now $2i = df...$
