Pursuant to a congressional request, GAO examined the adequacy of the Federal Aviation Administrations (FAA) maintenance staffing, focusing on the impact of the: (1) current staffing situation on the air traffic system; and (2) projected attrition of maintenance personnel on staffing requirements. GAO found that: (1) FAA hiring restrictions, staffing priorities, and failure to receive budget approval for additional staffing caused critical technician vacancies; (2) staffing shortages seriously impaired air traffic maintenance services; (3) increased work loads affected staff morale; (4) the outlook for technician staffing was not good, due to the large number of prospective retirements and the long training period for replacements; and (5) the performance data used for management analysis did not accurately reflect current conditions in the field. This item ships from La Vergne, TN. Paperback.
