Date :2008-12-1. China's labor problems caused by global economists are increasingly widespread concern. we can say that China's labor economics is in a rapid golden age of development. most populous country. background and unique economic model for the transition of labor economics theory provides a very valuable material. As a new cross-disciplinary. labor economics is the short time into the domestic system. and gradually lead to greater attention in recent years. Relative to China's labor market challenges. the current domestic research in this area there is great potential. which is why we founded the labor economics. economic Review. the focus lies. Other aim is to promote the development of China's labor as the goal of economic theory. labor economics researchers at home and abroad sought to create high-quality thinking and academic exchange platform for the relevant state departments of macro decision-making reference. China's labor market and employment system characteristics requires us to great wisdom and efforts into China to study labor economics. Labour Economic Review. Bulletin of the launch is an...
